

azoria

INGROUND FIBERGLASS POOLS

The Origin of Azoria

Aquarino and Dolphin merged, becoming the largest fiberglass pool manufacturer in Canada. They now operate under a single brand : **AZORIA**.

THE NEW WAVE

The name “Azoria” evokes the Azores, a Portuguese archipelago, as well as an azure hue, symbolizing the connection with crystal-clear blue waters. It also reflects the founder’s cultural heritage and his attachment to his native island in Portugal. This union aims to leverage the complementary strengths of both companies and offer a wider range of products that meet the needs of backyards of all sizes and styles, whether urban or rural. By combining our expertise and resources, we are better positioned to innovate, improve the quality of our products, and provide exceptional service to our customers.

COVATEC

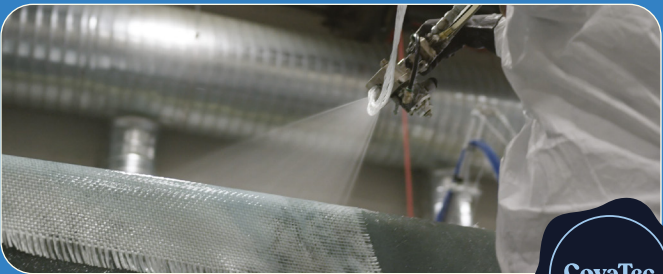

Excellence, performance and innovation

Azoria is more than just a fiberglass pool manufacturer – we are innovators, constantly evolving to enhance the pool installation experience and redefine quality standards. Our CovaTec initiative is the hallmark of our commitment to installer-driven innovation, setting us apart in the industry by making installation easier, faster, and more cost-effective.

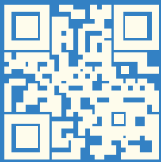

The CovaTec difference goes beyond ease of installation. It's in the superior quality of materials we use to manufacture each pool, ensuring every model stands up to the demands of time and the environment. We combine premium materials with groundbreaking design features, allowing us to continuously improve upon what exists in the industry.

With insights from over 450 successful installations, we've developed CovaTec with the installer in mind, designing tools and accessories that streamline even the most challenging aspects of pool setup. Each CovaTec model is crafted for ease, durability, and long-term value, featuring exclusive accessories and smart design elements that guarantee a seamless installation process every time.

Choose CovaTec by Azoria for an exceptional quality pool. By using durable, robust materials combined with innovative design, each pool is built to withstand the test of time. With CovaTec, you're investing in a pool that will provide moments of enjoyment and relaxation for many years to come.

Ultra-resistant and radiant colors

Our Aqua Radiance color technology creates colors of unmatched durability. After much research and development, we have successfully improved the process of making and applying the gel coat and color to fiberglass. In addition to being extremely durable, our pool colors stand out for their sparkling effect when the sun's rays pass through the water. We are committed to making the most vibrant colors on the market, to best suit our climate and severe weather conditions.

Our AQUARINO collection

The Aquarino Collection was developed for modern-day, urban yards, adapting to a market reality that has led to an increase in restricted backyard spaces. The arrival of our smaller dimension pools provides a great solution, allowing homeowners the ability to maximize their outdoor space whilst maintaining important backyard elements that allow for entertainment, dining, and greenery. Our sleek and modern designs were created to fit perfectly with the dimensions of the Rinox landscaping collection to provide a complete, elegant, and zen backyard oasis look.

3 ideas for your exterior design

Low-maintenance, practical landscaping should be your focus

It’s no coincidence that limiting greenery around the pool is often recommended. Think about the maintenance required if you have to trim a cedar hedge close to the pool, water a flowerbed, or mow the lawn nearby. The next inevitable task will be cleaning grass and branches off the concrete slabs and out of the water. After all, the goal is to enjoy summer to the fullest, so it’s better to minimize maintenance and maximize time for play or relaxation.

LARIMAR
ARCTIC GREY

Opt for potted plants instead. The variety of designs, textures, and colors is endless and can add a sophisticated touch to your backyard. Define your style by using outdoor tropical plants for a vacation vibe, perennial flowering plants if you like to see them return each year, or annual flowers and plants to switch things up year to year.

OPAL
SEA SALT

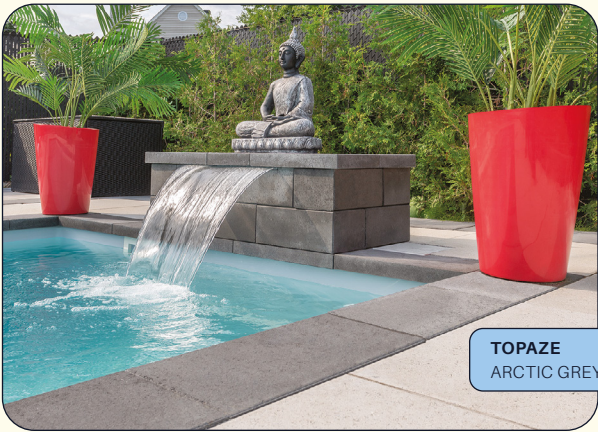

Integrate a waterfall !

Whether you are following the nature-inspired trends, or enjoy listening to the sound of running water, including a waterfall feature will compliment the landscape design around an inground pool. These features require little maintenance but add character to your backyard landscaping.

Ask your landscaper to plan the integration of a waterfall using decorative concrete retaining walls. You’ll require their expertise for this to ensure proper installation.

Inground pool fencing, a decorative and functional element to consider in your design

With the range of fencing options now available, you’ll have every opportunity to add a stylish touch to your project. If you’re aiming for low-maintenance, try an aluminium or steel fence. A traditional wooden fence may require more maintenance, but offers warmth and privacy. Opt for a stylish fence with tempered glass railings to create complete visibility. Alternatively, hybrid solutions – glass with aluminum railings, aluminium-only or frost – are all low-maintenance options.
